

ROI Investment Platform - Work Flow Document

1. Overview

This document describes the workflow, structure, and functionality of the ROI-based investment platform. The platform includes ROI plans, referral income, salary income, multi-level structure, breakdown management, and integrated deposit/withdrawal systems using USDT and INR. It supports admin, staff, distributor, and white-label systems (B2B/B2C).

User Registration & KYC

- User registers via email/mobile.
- Manual/Offline KYC verification (similar to Binance).
- KYC must be approved by Admin before withdrawal.
- By Mange Admin

Investment Plans & ROI

- ROI Credid (weekly, monthly, or delay credit).
- User can buy plan via:
 - Admin Request
 - Direct Wallet (USDT/INR)
 - E-PIN System
- By Mange Admin

Referral & Qualification System

- Free User
- Paid User
- By Mange Admin

Salary Income & Qualification System

- User qualifies with either:
 - 2 Paid Users within 72 hours, OR both
 - 10 Free Users within 72 hours, OR both.
- Turnover calculated up to 2 levels (direct referral + their direct referral).
- Admin manages and sets qualification and turnover rules.
- Salary income credited automatically after qualification.
- Example Plans:
 - Plan 1: 2000 USDT → 15 Days → 500 USDT → 5 Months Salary.
 - Plan 2: 4000 USDT → 30 Days → 1000 USDT → 10 Months Salary.
- Admin can add/remove levels.
- Salary income controlled by Admin.
- Salary credited automatically as per plan and level performance.
- By Mange Admin

ROI Boost by Active Referrals

- When user has 50+ referrals (free or paid combined), ROI percentage increases.
- Admin defines ROI boost percentage and conditions.
- Every new paid user in referral tree can increase ROI based on admin settings.
- By Mange Admin

Breakdown System

- Each investment deducted by 20%.
- 80% credited under Breakdown Wallet.
- Refund Timeline defined (50% Debit ROI add user credit For Roi refund after).
- Exmple PLAN BUY USER 100USDT ROI 20USDT CREDIT 10USDT Debit 80%- 10USDT = 70USDT REFUND
- Admin approval required for refund processing.
- By Mange Admin

Deposit & Withdrawal

- Supports both INR and USDT transactions.
- Deposit Methods: Manual approval / Gateway / API integration via Moralis.
- Withdrawal: Manual approval by Admin with Transaction ID generation.
- By Mange Admin

Transaction Management

- Each transaction includes: TX ID, Type (Credit/Debit), Amount, Date.
- User can filter transactions by type/date/status.
- Admin can export transaction logs in CSV format.
- By Mange Admin

Currency Converter

- INR ⇌ USDT converter integrated in dashboard.
- Uses live rates from API (Moralis or Binance API).
- By Mange Admin

Staff, Distributor & White Label System

- Staff roles with permission levels (approve KYC, handle withdrawal, etc.).
- Distributor & Retailer dashboards for user management and commission view.
- White Label API for external branding, with B2B/B2C integration.
- By Mange Admin

Work Flow Same Properly detail

- User visits platform (Web/App).
- Options: **Register via Email or Mobile Number.**
- Enter Name, Email/Mobile, Password, Referral Code (optional).
- Receive **OTP verification** (Email/SMS).
- Upon verification → redirected to **KYC section.**

1.2 KYC Verification

- User uploads:
 - PAN / Aadhaar / Passport image
 - Selfie or Video KYC (if required)
- KYC Status shows:
 - **Pending / Approved / Rejected**
- Until approved → deposits allowed, **withdrawals locked.**

Flow:

Register → Verify OTP → Upload KYC → Wait for Approval → Dashboard Access

2. DASHBOARD (Main User Home)

Displays user's entire investment and wallet overview.

Sections:

- Total ROI Earned
- Active Plans
- Total Investments
- Wallet Balances (INR / USDT)

- Referral Count (Free/Paid)
- Latest Transactions
- Notification Alerts

User Actions:

- Click any summary box to open details (ROI, Wallet, Referrals, etc.)
-

3. WALLET MANAGEMENT

Dual-wallet system for **INR** and **USDT** balances.

3.1 INR Wallet

- Deposit via:
 - UPI / NEFT / IMPS (manual or API)
- Upload payment proof (if manual).
- View transaction status: Pending / Approved / Rejected.

3.2 USDT Wallet

- Deposit using blockchain address (TRC20/ERC20).
- View TX ID and confirmation status.
- Auto-credit on confirmation.

3.3 Wallet Functions

- **Withdraw:** Choose wallet type, enter amount, confirm via OTP/2FA.
- **View History:** Transaction type, amount, TX ID, status, date.
- **Currency Converter:** INR ⇌ USDT (live API rates).

Flow:

Wallet → Deposit / Withdraw → Confirmation → Status Tracking

4. INVESTMENT PLANS

User can invest directly from wallet.

4.1 Browse & Buy Plans

- View all available plans with:
 - ROI %, Duration, Minimum Investment, ROI Frequency (daily/weekly/monthly).
- Select plan → Confirm purchase using Wallet balance.
- Plan activates instantly after payment confirmation.

4.2 Active Plans

- Displays ongoing investments:
 - Start Date, Maturity Date, ROI %, Earned ROI, Status.
- ROI credited automatically as per schedule.

4.3 Plan History

- Shows completed/expired plans.
- Option to **reinvest** or **upgrade** to higher plan.

Flow:

Dashboard → Choose Plan → Pay via Wallet → Active Plan → Auto ROI Credit

5. ROI & INCOME

Tracks all income types generated from investments and referrals.

5.1 ROI Earnings

- Auto-credited per plan schedule.
- Display ROI source, plan ID, credit date, and amount.

- ROI credited to **ROI Wallet**.

5.2 Salary Income (Qualification)

- If user qualifies (based on referrals):
 - 2 Paid Users within 72 hrs, OR
 - 10 Free Users within 72 hrs.
- Once qualified → Monthly Salary Income auto-credited.

5.3 ROI Boost

- When 50+ active referrals (Free/Paid combined) → ROI % boost applied.
- Boost percentage defined by admin, visible to user on dashboard.

Flow:

Investment → Qualification → Auto ROI & Salary Credit → Boost Updates

6. REFERRAL SYSTEM

Multi-level referral structure for network growth.

6.1 Invite & Share

- Generate referral link or QR code.
- Share via WhatsApp, Telegram, Email, or Copy Link.

6.2 Referral Tree

- View team hierarchy (level-wise):
 - Level 1 → Direct Referrals
 - Level 2 → Referrals of Directs
- Displays total members, paid/free users, qualification stats.

6.3 Referral Income

- Earnings from direct and indirect referrals.
- Breakdown: Level, Member Name, Status, Reward Amount.

Flow:

Referral → Invite → Team Tree → Income Report

7. BREAKDOWN WALLET SYSTEM

When investment made:

- 20% held for system operations.
- 80% credited to **Breakdown Wallet** for ROI and refunds.
- Refund eligibility shown with timeline.

Example:

Investment 100 USDT → ROI 20 USDT → Debit 10 USDT → Refund 70 USDT after period.

Flow:

Invest → 80% Breakdown Credit → ROI Credit → Refund Timeline

8. TRANSACTIONS HISTORY

Detailed record of every transaction.

Filters:

- Transaction Type: Deposit / Withdraw / ROI / Salary / Referral / Refund
- Status: Pending / Approved / Failed
- Date Range
- Export CSV

Flow:

Transactions → Filter → View Details → Export

9. NOTIFICATIONS & ALERTS

Keeps user updated in real time.

Notifications:

- KYC status changes
- Deposit/withdraw approval
- ROI credit & plan expiry
- Referral qualification alerts
- Security notifications (Login, 2FA)

Flow:

Notifications → View → Mark as Read

10. PROFILE & SETTINGS

User manages personal and security details.

Menu Items:

- Personal Info (Name, Email, Mobile)
- Change Password
- Enable/Disable 2FA
- Bank / USDT Wallet Address
- Language & Theme (Light/Dark)
- Logout

Flow:

Profile → Edit / Secure → Save

11. HELP & SUPPORT

Dedicated user support center.

Options:

- Live Chat (AI bot or human agent)
- Submit Ticket
- FAQs & Knowledge Base
- Tutorial Videos

Flow:

Help → Chat or Ticket → Resolution

ADMIN WORK

1. ADMIN DASHBOARD

Features:

- Summary Cards:
 - Total Users / Paid Users / Free Users
 - Total Deposits / Withdrawals
 - ROI Distributed / Pending
 - Active Investment Plans
 - Pending KYC / Refund Requests
 - INR ⇄ USDT Current Rate
- Graphs:
 - Daily Deposit vs Withdrawal
 - ROI Distribution Chart
 - User Growth Chart
 - Top Referrers
- Quick Shortcuts:
 - Verify KYC
 - Approve Deposit
 - Approve Withdrawal

- Add Investment Plan
 - Manage Blog
-

◆ 2. USER MANAGEMENT

Menu Sections:

- All Users
- Verified Users
- Pending KYC
- Blocked / Suspended Users

Actions:

- View User Profile
- Approve / Reject KYC
- Credit / Debit Wallets
- Reset Password / PIN
- Suspend / Delete Account
- Send Custom Notification

Profile Tabs:

Personal Info, KYC Docs, Investments, Wallets, ROI Logs, Referrals, Login Logs.

◆ 3. KYC MANAGEMENT

- View Submitted Documents
- Approve / Reject with Remarks
- Video KYC Verification Option
- Bulk Approvals

- Export KYC Report
-

◆ 4. INVESTMENT PLAN MANAGEMENT

- Add / Edit / Delete ROI Plans
 - ROI Percentage
 - Plan Duration
 - ROI Frequency (Daily/Weekly/Monthly)
 - Set Minimum / Maximum Investment
 - Plan Description & Image
 - Activate / Deactivate Plans
 - Track Users under each plan
-

◆ 5. ROI MANAGEMENT

- Configure ROI Credit Rules (Auto / Manual)
 - ROI Credit Frequency
 - View ROI Logs (User, Plan, Amount, Status)
 - Re-credit ROI if failed
 - Reverse ROI Transactions
 - Export ROI Report
-

◆ 6. SALARY INCOME MANAGEMENT

- Set Qualification Rules (Paid/Free Referrals)
- Define Time Limit (72 hours, etc.)

- Salary Period (Months / Installments)
 - Salary Income Logs
 - Manual Salary Adjustment
-

◆ **7. REFERRAL SYSTEM MANAGEMENT**

- Multi-level Configuration (Level 1–10)
 - Define Commission % per level
 - Referral Tree Viewer (Expandable View)
 - View Each User's Team Summary
 - Referral Income Logs
 - Export Team Reports
-

◆ **8. ROI BOOST MANAGEMENT**

- Create ROI Boost Rules (e.g., 50+ referrals → +2% ROI)
 - Set Boost Duration / Limit
 - View Eligible Users
 - Apply or Revoke Boost
-

◆ **9. BREAKDOWN MANAGEMENT**

- Define Deduction % (e.g., 20%)
- Refund Timeline Setup
- Refund Request Approval System
- Refund History Report

◆ 10. DEPOSIT MANAGEMENT

- Approve / Reject Deposits (INR / USDT)
- Gateway Integration (Moralis, UPI, Bank API)
- Upload Deposit Proofs (manual deposits)
- Deposit Logs & Filters
- Export Report

◆ 11. WITHDRAWAL MANAGEMENT

- Review Withdrawal Requests
- Approve / Reject / Hold
- Enter TX ID (for blockchain)
- Auto-Email Confirmation to User
- Withdrawal Summary Chart

◆ 12. TRANSACTION MANAGEMENT

- View All Transactions (Credit / Debit)
- Manual Entry Option
- Transaction Filters (User, Date, Type)
- Export CSV / PDF
- Audit Logs for every entry

◆ 13. WALLET MANAGEMENT

- View All Wallet Types (INR, USDT, ROI, Salary, Breakdown)
 - Adjust Balances (Credit/Debit)
 - Freeze / Unfreeze Wallet
 - Wallet Transfer Logs
 - Automated Backup
-

◆ **14. CURRENCY CONVERTER**

- API Integration (Moralis / Binance)
 - Manual Override Rate
 - Conversion Logs
 - Update Frequency Control
-

◆ **15. STAFF & ROLE MANAGEMENT**

- Add / Edit / Delete Staff
 - Assign Roles (Super Admin / KYC Manager / Finance / Support)
 - Role-Based Permissions
 - Staff Login & Activity Logs
-

◆ **16. WHITE LABEL / DISTRIBUTOR PANEL**

- Add / Manage White-Label Partners
- Assign Custom Branding (Logo, URL)
- Partner Commission Setup
- B2B / B2C API Access

- Distributor Earnings Reports
-

◆ 17. NOTIFICATIONS MANAGEMENT

- Send Push / Email / SMS Notifications
 - Create Templates (Deposit, ROI, Referral, etc.)
 - Schedule Notifications

 - View Sent Logs
-

◆ 18. REPORTS & ANALYTICS

- User Growth Report
 - Deposit & Withdrawal Summary
 - ROI & Salary Income Analysis
 - Referral Performance Charts
 - Wallet Ledger Report
 - Daily / Monthly Finance Export
-

◆ 19. BLOG MANAGEMENT (NEW MODULE)

Purpose: Admin can create, manage, and publish blog posts, news, and announcements.

Menu Sections:

- All Posts
- Add New Post
- Blog Categories

- Comments Moderation
- Blog Settings

Add Blog Post Form:

- Title
- Short Description
- Full Content (Rich Text Editor)
- Thumbnail Image Upload
- Category Selection
- Tags (SEO Keywords)
- Author Name
- Publish Date / Status (Draft or Published)

Blog Categories:

- Add / Edit / Delete Category
- Assign Color or Icon

Comments Management:

- View Comments (Post-wise)
- Approve / Reject / Delete
- Block Spam Users

Blog Settings:

- SEO Meta Tags (Title, Description, Keywords)
- Blog Visibility (Public / Members Only)
- Comment Permissions (All / Logged-In Users Only)

Actions:

- Create / Edit / Delete Blog Post
 - Schedule Post Publishing
 - View Blog Analytics (Views, Likes, Comments)
-

◆ 20. SUPPORT TICKET SYSTEM

- View Open / Closed / Pending Tickets
 - Assign Ticket to Staff
 - Reply or Close Ticket
 - Ticket Filters by Category / Priority / Date
 - Export Ticket Report
-

◆ 21. CMS (CONTENT MANAGEMENT)

- Manage Website Pages (About, Terms, Privacy, etc.)
 - Add New Pages
 - Edit Text / Images / SEO Tags
 - Activate / Deactivate Page Visibility
 - Drag-and-Drop Page Order
-

◆ 22. SETTINGS & CONFIGURATIONS

Sections:

- General: Logo, App Name, Contact Info, Footer Links
- Security: 2FA, Login Timeout, IP Restriction
- Payment Gateway Keys: UPI, Moralis, Binance

- API Settings: SMS, Email, Push
 - Cron Setup: ROI Credit, Salary Payout, Reports Backup
 - Theme Settings: Light / Dark
 - Language: Multi-Language Support
 - Backup & Restore: Manual / Auto Backup
-

◆ 23. ADMIN PROFILE & ACCOUNT

- View / Edit Personal Details
 - Change Password
 - Enable/Disable 2FA
 - Logout / Session Timeout Logs
-
